

- 1 Look at the pictures and discuss what each picture shows.
- 2 Read and answer the questions.

WHAT IS CLEANLINESS?

Cleanliness is about keeping ourselves, our homes, our school, and the community clean.

Personal Hygiene

Washing with soap and warm water removes germs and bacteria from your hands. This helps you fight infections like the flu or a bad cold.

At Home

Dust makes the air dirty and is not healthy for you. Household chores like sweeping the floor can help to keep the air clean.

In the Classroom

A clean classroom stops bad smells and keeps the air clean. Some studies say a clean classroom can help you study better.

In Public Places

When we throw trash in the street, mosquitos and flies sit on it and carry germs in the air.

- 1 Why is washing our hands important? It stops germs.
- 2 What does dust do to the air? It makes the air dirty.
- 3 How can we stop dust? We can sweep the floor.
- 4 How does a clean classroom help us? It helps us study better.
- 5 What happens when we throw trash in the street? Mosquitos and flies carry germs.

- 3 Write four tips for keeping clean. Then compare your ideas with a partner.

Wash your hands with soap.

Sweep the floor often.

Keep your classroom tidy.

Put trash in the bin.

We can wash our hands before we have a meal.
