1 Read and check (✓) the correct behavior.

1 Eat healthy food and drink water.

2 Wash your hands before you eat.

2 Read the *Good Hygiene* poster. Then write *do* or *don't* after each sentence.

Some Good Hygiene Habits

We all want to be healthy. No one likes to feel sick. So here are some ideas on how to take care of yourself and keep healthy.

You should always wash your hands before you eat.

You should sleep for ten hours every night. You shouldn't play on a phone or tablet at bedtime. You should read a book so you will sleep better.

Whenever you use a digital device like a tablet, you should rest your eyes. Doctors say for each hour of use, you should rest your eyes for ten minutes!

You must cover your mouth with your elbow or a tissue when you cough. You must wash your hands after because you might make someone else sick.

You should get regular exercise outside. You can play a sport or just play outside with friends. But be careful so that you don't get hurt.

NOW REMEMBER TO FOLLOW THESE PRACTICES AND YOU WON'T FEEL SICK.

1 Wash your hands before you eat.

do

2 Sleep for ten hours a night.

do

3 Play on a tablet before you sleep.

don't
